

Industrial adhesives for textile installation aids,
and many other commercial and industrial applications.

-Anti-Frey for cut and sew, bonding textiles together.

-RTV high temperature 650°F silicone for installing ropes/braids etc.

-Made in USA adhesives that our years of experience have proven work great in industrial settings.

363 adhesive (ASPRAY363) is a go-to fast tack, fast grab, low soak-in spray. Frey lock for cut and sew. Great for bonding paper, cardboard, fabrics, urethane foam, foils, carpets, metal wood, concrete and most plastics.

363B(ASPRAY363B) is bulk form of 363, sold in five gallon pails, sprayed with your own air gun equipment.

393 adhesive (ASPRAY393) is a very high tack for difficult and open weave and nonwoven textiles. Headliners, trim, and challenging laminations are often solved with 393. Apply to both sides for best results.

092 adhesive (ASPRAY092). Contact adhesive, aggressive for heavyweight textiles, vinyl's, and non woven. High immediate bond strength, non misting lace pattern spray.

115 silicone adhesive (CSPRAY115) is a red RTV silicone adhesive for high temperature resistance to 650°F, and superior bond strength. Perfect INSTALL aid for ropes, braids, tadpoles and other industrial sealing. CSPRAY115 is an instant gasket maker meeting many automotive specifications. Eliminates squeeze tubes and caulk guns, think cheese whiz can with a dispenser tip!

5 GALLON PAIL

ADHESIVES

THERMAL COMPOSITES

CAMIE 363B HIGH STRENGTH FAST TACK ADHESIVE

- Especially formulated to bond paper, cardboard, fabric, leather, foil, fiberglass to metal
- Colorless
- For application by low-pressure spray equipment
- Fast tack
- Excellent sprayability
- Five gallon pails or 55 gallon drums

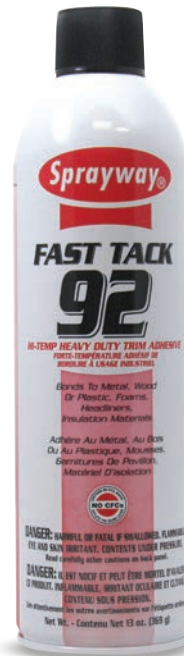

CAMIE 393 HEADLINER, TRIM & LAMINATING ADHESIVE

- Bonds substrates that require high end strength and/or need elevated temperature resistance
- Excellent green strength & water resistance
- Substrates can be joined as quickly as 10 seconds

RTV SILICONE GASKET MAKER

- Seals, bonds, insulates
- Low volatile/flexible
- Easy to use
- Eliminates waste/economical
- Waterproof/weatherproof
- Eliminates squeeze tubes & cartridge guns
- 100% low volatile R.T.V. silicone
- Meets G.M. and O.E.M. specifications
- Safe to use on oxygen sensor equipped vehicles
- Cures at room temperature, range from -60°F to +650°F
- Red paste appearance

FAST TACK HI-TEMP HEAVY DUTY TRIM ADHESIVE

- For bonding vinyl tops, heavyweight headliners and hood silencer pads
- High immediate bond strength with a non-misting, lace-like spray
- Formulated for the automotive professional
- Allows repositioning during assembly
- Long bonding range (5 minutes to 1 hour)
- Excellent heat & water resistance
