PTFE Coated Glass Sewing Thread

McAllister Mills, Inc. Revised: May 31, 2015

Section 1 – Product and Company Identification

Product Name: PTFE Coated Glass Sewing Thread **Manufacturer Information:** McAllister Mills, Inc.

McAllister Mills, Inc. 173 Rainbow Circle Independence, VA 24348 (276) 773-3114

Emergency Contacts: Gary Burris

Prepared By Torri Nichols (276) 773-3114

Preparation Date: March 27, 2015

Supercedes: April 26, 2014

Section 2 - Hazards Identification

Hazard Classification:

NA
Signal Word:

N/A
Hazard Statement:

N/A
Pictograms:

N/A

Precautionary Statement: Inhalation of the thermal decomposition products,

arising from high temperature or fire, is hazardous to

health. Contamination of tobacco products must be

avoided

Potential Hazards:

Skin: Cutting or abrading material may produce small

amounts of glass fiber particulates which may

cause skin irritation.

Eyes: Not a likely route of entry.

Inhalation: Inhalation of fumes from burning or heating above

PTFE Coated Glass Sewing Thread

McAllister Mills, Inc. Revised: May 31, 2015

300 C can cause polymer fume fever. Ingestion: Not a likely route of entry. Ingestion can cause gastrointestinal tract irritation.

Section 3 – COMPOSITION/INFORMATION ON INGREDIENTS

Ingredient name CAS # Weight % Polytetrafluoroethylene (PTFE) 9002-84-0 10-20% Glass fiber 65997-17-3 80-90%

Various High Temperature Pigment < 2%

Section 4 – First Aid Measures

Skin: Not normally considered hazardous, if irritation

occurs wash thoroughly with soap and water, if

irritation persists consult a physician.

Eyes: Not normally considered hazardous, if irritation

occurs flush with water, if irritation persists

consult a physician.

Inhalation: N/A for material as supplied at room temperature

and used as intended. Processing at high temperature may generate fumes which can cause flu-like symptoms. Remove to fresh air, consult

physician if severe.

Ingestion: If swallowed consult a physician. Do not induce

vomiting unless instructed to do so by a

physician.

Most Important Symptoms and Effects: Polymer Flu Fever. Inhalation of the thermal decomposition products, arising from high temperature or fire will cause flu like symptoms. Symptoms may be delayed several hours.

PTFE Coated Glass Sewing Thread

McAllister Mills, Inc. Revised: May 31, 2015

Section 5 – Fire Fighting Measures

Suitable Extinguishing Media: Use media appropriate to primary source of fire.

Specific Hazards During Fire-Fighting: Material is incombustible but if other fuel is present decomposition products will burn at about 1250F, producing toxic and corrosive gaseous products.

Special Protective Equipment: Wear self-contained breathing apparatus and protective suit. Wear neoprene gloves during cleaning up work after a fire.

Section 6 – Accidental Release Measures

Personal Precautions: N/A Solid material

Environmental Precautions: N/A Solid Material

Methods & Materials for Cleanup: Collect with hands, broom, shovel, and/or vacuum.

Section 7 – Handling and Storage

Store and handle using good warehouse practices. Avoid contamination of tobacco products.

Section 8 – Exposure Controls / Personal Protection

Engineering Controls: NA

Personal protective equipment: Use appropriate NIOSH-approved respirator in the presence of dust or decomposition fumes

Eye and Face: Use of safety glasses is recommended

Hands, Arm, and Body: Material is small in diameter yet relatively strong, and can

produce cuts, particularly if being rewound or transferred at a high speed.

Exposure Guidelines:

Ingredient Name ACGIH TLV mg/m3

OSHA PEL mg/m3

Polytetrafluoroethylene (PNOC)

Particulates Not Otherwise Classified 15 (total dust) 10 (inhalable fraction)

PTFE Coated Glass Sewing Thread

McAllister Mills, Inc. Revised: May 31, 2015

5 (respirable fraction) 3 (respirable fraction)

Fibrous glass dust: 15 (total dust) 5 (inhalable fraction)

5 (respirable dust) 3 (PNOC)

Hygiene Measures: Wash hands immediately after handling, do not contaminate

tobacco products.

Section 9 - Physical and Chemical Properties

Appearance: Solid continuous sewing thread of various

colors

Upper / Lower Flammability or

Explosive Limits: N/A Odor: None

Vapor Pressure: N/A

Odor Threshold: N/A

Vapor Density: N/A

pH: N/A

Relative Density: N/A

Melting Point / Freezing Point: N/A

Solubility: Insoluble

Initial Boiling Point & Boiling Range: N/A

Flash Point: N/A

Evaporation Rate: N/A

Decomposition Temperature: 300 C

Viscosity: N/A

Section 10 - Stability & Reactivity Information

Reactivity: Stable at normal ambient temperature and pressure

Chemical Stability: Stable

PTFE Coated Glass Sewing Thread

McAllister Mills, Inc. Revised: May 31, 2015

Incompatibilities: Strong oxidizers, acids, and bases.

Hazardous Decomposition Products:

corrosive gaseous products.

Thermal decomposition may produce toxic and

Hazardous Polymerizations: Hazardous polymerization will not occur

Section 11 - Toxicological Information

Immediate (acute) Effects: No acute effects have been identified.

Delayed Effects: No delayed or chronic effects have been identified.

Other Data: NA

Section 12 - Ecological Information

No ecological information is available for this material.

Section 13 - Disposal Considerations

Waste Disposal: Material as supplied is not a hazardous waste according to RCRA. Landfill according to current federal, state, and local regulations, or incinerate in a high-temperature incinerator designed to burn fluoride-containing materials. Processing, use or contamination may make this information inaccurate or incomplete.

Section 14 – Transport Information

US DOT Hazard Class: NA
US DOT ID Number: NA

Section 15 – Regulatory Information

TSCA Status: Each ingredient is on the inventory

NRS Status (Canada) Each ingredient is on the DSL

SARA Title III: Hazard Categories:

PTFE Coated Glass Sewing Thread

McAllister Mills, Inc. Revised: May 31, 2015

Acute Health: yes Chronic Health: no

Fire no

Pressure Hazard: no

Reactivity: no

Reportable Ingredients:

Sec: 313: none

Sec. 302: none

Section 16 – Other Information
